PROFILE

JUNIPER BROOKS

JUNIPER BROOKS HISTORY

The origin of Juniper brooks traces back to 1963 as Rao & Rao Co who were integral in the Nagarjuna Sagar Dam . For more than 50 years R R C offered successful services as Contractors in completion of the works related to the various fields of Irrigation, Hydro Reservoir Dams, Canals, Railways and IT Infrastructure.

Their 2nd Generation took the lead in 1985 to join the Family Partnership firm Efftronics Company in Vijayawada. Efftronics flourished in Indigenous Technology development of L E D display, Homeopathy Computer, Embedded systems like Data Loggers (Black Box of Railway Station) and customized L E D lighting solutions

The experience gave rise of the 3rd Generation Company Juniper Brooks in Hyderabad and Vijayawada as Architectural and Interior Design services
